

## IT Essentials 5.0

### 6.3.3.4 Worksheet - Protocol Definitions and Default Ports

Print and complete this worksheet.

In this worksheet, you will write the name of the protocol and the default port(s) for each protocol definition in the table.

Be prepared to discuss your answers.

| Protocol Definition                                     | Protocol | Default Port(s) |
|---|----------|-----------------|
| Provides connections to computers over a TCP/IP network |          |                 |
| Sends email over a TCP/IP network                       |          |                 |
| Translates URLs to IP address                           |          |                 |
| Transports Web pages over a TCP/IP network              |          |                 |
| Automates assignment of IP address on a network         |          |                 |
| Securely transports Web pages over a TCP/IP network     |          |                 |
| Transports files over a TCP/IP network                  |          |                 |
| Manage and monitor devices on a network                 |          |                 |
| Download email from an email server                     |          |                 |
| Access information directories                          |          |                 |
| Remote access to computers (MSTSC)                      |          |                 |
| Secured file transfer system                            |          |                 |
| Provides shared access to file and printers             |          |                 |
| Provides no Internet access in a workgroup network      |          |                 |
